EDUCATION

Veermata Jijabai Technological Institute (VJTI)

Aug. 2023 – May 2027

Bachelor of Technology in Information Technology

Mumbai, Maharashtra

- **CGPA:** 7.57 / 10
- **MHT-CET 2023:** Rank **under 700** out of 3 lakh+ candidates statewide
- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Computer Networks, Database Management Systems, Software Engineering, Artificial Intelligence, Web Technologies

PROJECTS

EventSync — Multi-Tenant Event Management SaaS

May 2026

Next.js, TypeScript, Clerk, Prisma, NeonDB, Tailwind CSS | [GitHub](#)

- Built a full-stack **multi-tenant event management SaaS** with organization workspaces, **Clerk** authentication/organizations, and **role-based access control (RBAC)** enforced at the API layer, with strict workspace-level data isolation.
- Synced user and organization lifecycle events via **Svix-backed Clerk Webhooks** into **NeonDB** using **Prisma ORM**, with soft deletes and versioned migrations for safe schema evolution.
- Implemented per-tenant **rate limiting with Upstash Redis**, **Zod**-validated environment config, and structured logging to harden the app for serverless deployment, and built an admin dashboard to audit webhook events.
- Wrote **Vitest** unit/integration tests and **Playwright** E2E tests covering RBAC and tenant isolation, wired into a **GitHub Actions** CI pipeline.

AskAway — Full-Stack QnA Platform

February 2026

Next.js, React.js, Appwrite, Tailwind CSS | [GitHub](#)

- Built a **Stack Overflow-style** developer-focused QnA platform enabling real-time question browsing and answers; leveraged Next.js SSR to achieve **sub-2s page load** across 10+ dynamic routes.
- Architected real-time answer sync using **Appwrite Webhooks**, with the Appwrite SDK handling authentication, user management, and database operations.
- Resolved **server-side auth hydration mismatch** in Next.js App Router by configuring Appwrite session cookies for SSR, ensuring consistent authentication state across server and client renders.
- Designed a fully responsive, mobile-first UI with React.js and Tailwind CSS, ensuring consistent UX across devices.

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, HTML/CSS, SQL

Frontend: React.js, Next.js (App Router), Tailwind CSS

Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, Prisma ORM

Databases & Caching: PostgreSQL, NeonDB, MongoDB, Redis

Tools & Platforms: Git, GitHub, Docker, Vercel, Postman, CI/CD (GitHub Actions), AWS, Appwrite, Clerk

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS

COMPETITIVE PROGRAMMING

LeetCode: Solved **400+** problems, Contest Rating **1768 (Top 10%)**

Codeforces: Solved **200+** problems

CodeChef: **3-Star** rated coder, Rating **1622 (Max: 1697)**
